

# Jeffers Class Homework - Summer 1

Hello there!

This is the homework menu. Over the course of the term please choose one activity from each category (3 activities in total)  
Please send the completed work in to school anytime on the last week of term (Monday 24<sup>th</sup> May/Tuesday 25<sup>th</sup> May) for us to celebrate and display.

**It is up to you how you present your tasks, so feel free to get creative!**

I will also continue to set Reading Eggs and Mathletics challenges on alternate weeks. Children are more than welcome to use these resources at any point to earn those exciting certificates!

Children should also keep practicing their reading, flashcards and phonics at least 4 times a week. Through this we are earning housepoints and pom to win a class

.....

## Homework Challenges

### Maths / English

Watch this clip all about a Lonely Girl who goes on an adventure.

<https://www.youtube.com/watch?v=DRsmuveKWuk>

Complete the challenge below:

Label the book cover below with what you can see.

Complete the following using capital letters and full stops.

\_\_\_\_\_

\_\_\_\_\_

How good are you at following directions?

Can you remember your left and right?

This way or that way?

$\frac{1}{4}$  turn left,  $\frac{1}{2}$  turn right? North, South, East or West? Which way shall we go?

Watch this funny clip about a herd of bison friends.

<https://www.bbc.co.uk/bitesize/clips/z7kwmp3>

After you have watched the clip

You could:

- Record a video of your journey.
- Take your grownups on a journey around your local area and use directional language to direct which way to go.
- Draw a pirate treasure map and use directional and positional language to describe your route to the treasure.

How long do journeys take?

Record the time your journeys take.

Make a clock face and use the clock to record the start time of your journey.

Then, record the finish time of your journey. Write your times down. How long did your journey take? What was your longest journey this week?

### Art and design

Can you design vehicle people could use in the future? How would it be different to vehicles of today?

Will it have special powers, a name, take passengers?

Draw, paint, or collage a picture of your favourite place to travel to... This could be the seaside, your Nan's house, the local park. It is up to you!

Imagine you had a magic door. Draw a picture of what you would see if you journeyed through your magic door.

### Our Big Question

If you could travel anywhere where would you go? Why? What would you take with you?

The longest journey ever made by a human was into space. What can you find out about journeys into space?

Are journeys only made by humans? Why? Why not?

Label the book cover below with what you can see.

Complete the following using capital letters and full stops.
