18th March 2022

Our daffodils are springing up, we have blue skies in the morning and we can start to smell the freshly cut grass - spring is here! As always, we have had a very busy few weeks, with lots planned to see us through to Easter. As the last day of term is on Thursday 31st March, there will be no Newsletter that week so although we will see you all before then, I would like to take this moment to wish you all a very Happy Easter!

Lincolnshire Cricket

Last week, we were very lucky to have Lincolnshire Cricket come and join us for the day. Each class had a coaching session with them, consisting of skills and a game. It was wonderful to see the children enjoying learning new skills, and for some of them being able to have the opportunity to show their cricket knowledge and skills they already had.

Science Week

What a fantastic week we have had celebrating Science. As part of British Science week, we have all had the opportunity to have planted a sunflower seed which we are looking forward to watching them grow over the up and coming weeks.

- Jeffers – We have discussed how we have grown using our baby pictures as a comparison.
- Dahl – We watched a live lesson to find out more about mini-beasts. We then designed bug hotels, which we made during Forest School.
- Morpurgo – We enjoyed watching a live lesson about Climate Change. We created an alien to grow on Mars.

- Blackman – We also watched a live lesson to find out more about Climate Change. We have also explored optical illusions and used this to create our own.

Comic Relief - by our School Council

Today all of the children came to school wearing something red. It was great at breaktime because the whole playground turned red when everyone was running around. We were also all given a paper plate which we took home to design our own red noses. Everyone did a great job and they look fantastic. We are now going to make them in to bunting and put them around school. On Monday, two winners, for the best design, will be announced and will be presented with their prizes.

Uniform

As we move into the nicer weather, I am sure we will start to see new uniform being worn. Please make sure it is named to avoid items being lost. It makes it so much easier for everyone.

Books - by our Librarians

Every day it is our job to make sure the library is looking smart and tidy, and we also help children choose books. The school has bought us lots of new books about so many different things and we love to be able to read these. It is really important we look after our books and we keep talking to children about this in our library. Sometimes the books come to school ripped and tatty, we are all going to try really hard to look after them and respect them.

Parents Evening

We are all looking forward to welcoming you back into school for Parents' Evening next week. We are still mindful of ensuring we are not overcrowding spaces, so please arrive 5 minutes before your appointment allowing you time to look at your child's book before speaking to their class teacher and limit the amount of people attending the meeting where possible. We will be trying our utmost to keep to specified time slots, so please do not be offended if the class teacher has to draw the meeting to an end, other opportunities to carry on conversations can be arranged if necessary.

Maths Day - Wednesday 23rd March

Mathletics are hosting a competition on Wednesday 23rd March. We would love to compete with other schools across the world and see how far up the table we can climb. The competition opens from 7:00pm on Tuesday 22nd March, from this point children can log on to Mathletics and complete the challenges to help our school earn points.

Tables to go

We have updated our lunchtime furniture in school. This means, we now have 15 hexagonal foldaway tables that we are no longer needing. If you would like any of these, please contact the school office.
