Number 4

13th November 2020

It is fantastic to be back at school for our last half term before Christmas. Although it seems like a while ago now, I hope you had a restful half term break. We are all looking forward to a busy term, with lots of fantastic learning opportunities and getting prepared for Christmas!

Homework

Just before half-term we celebrated the homework that children had carried out. There were some fantastic efforts and the children were so excited to share these with their peers, it really was fantastic to see. They are now on display in the hall.

You would have received the Maths Recall Facts and homework menus for this term. It was attached to the class newsletter which informs you of what will be happening this term. We will look forward to celebrating the children's learning again just before Christmas.

Mathletics/Reading Eggs

This week is Mathletics. It was good to see the children working hard on it. Keep up the good work.

Skills Builder

Our Skills for the last 2 week is Staying Positive. Over the next 2 weeks we are looking at how we can aim high.

Christmas

Although it will be slightly different this year, Christmas is still a really important and exciting time for us. You can have a look at the document attached to see just some of the things we have got planned.

Remembrance

On Wednesday, we took time to think about all those that have given up so much for us. For the first time since March. We had the whole school on the playground, which made this time even more poignant. The children have been very philosophical this week discussing the war and the effects of it.

Parent Feedback

After the Parent Forum last year, we went about putting changes in place to improve our school. Over the last week, we have invited parents to complete our questionnaire which we thank you greatly for do. The results were very positive and your supportive comments are hugely appreciated. As well as the positive responses, we have also received comments and suggestions about what we could do better and these are equally as important to us. If you do ever have any questions or queries, please do not hesitate to contact us. This can be done by email via the office or requesting a call to discuss any issues further.

We look forward to sharing the results with you, and will continue to seek to provide your children with the high-quality learning experience that they deserve.

Forest School

Just a reminder, Forest School sessions will continue even though it is starting to get colder and slightly damp. Please make sure your children have suitable clothing, including a spare set of footwear.

KIDS CORNER

Each week children will have a chance to become a 'journalist' and add to our newsletter. This week it is the turn of children in Blackman Class:

What a busy week Blackman class have had!

Remembrance Day

This week Remembrance Day has taken place. The whole school went out in the playground. We then socially distanced and had a two-minute silence at 11'o clock. All through the week we have been thinking about the soldiers and have learnt to not only think of the soldiers on the 11th November but to think of them all of the time.

A fishy privilege

Four of the students in Blackman class won a competition of the cleanest table and then had the prize of cleaning the fish tank. This was

supervised by Mrs Burnside - the office lady - and it was enjoyed very much.

Children in need!

On Friday 13th November 2020 Edenham primary celebrated 'Children in Need' by wearing non-uniform and reflecting on how lucky we all are. Online many parents donated money to the charity to help.

Zoom call with Tideway London!

As part of our Skills Builders learning, Blackman class had a very exciting end of the week as they had a zoom call with a real-life business, called Tideway London. Tideway London is a sewage company that builds sewers under the Thames to make it a cleaner place. Tideway London were asked lots of questions and never failed to answer. this was very fun. As well as this, our class has thought about believing, living and thinking, using religious education to help. In conclusion, this week has been really fun and we are very excited for the rest of the term.
