Number 8

4th February 2022

It is fantastic to see the weather starting to brighten up and the evenings getting lighter, it has certainly made it easier to run some of our after-school clubs! The children have almost made it to the end of another busy term, and as always have made us so proud of them every step along the way!

Valentine's Day!

With Valentine's Day falling in the Half Term holidays our children have had to be extra organised. They have spent time this week making Valentine's Day card for a local care home and our local residents. Our School Council will be delivering these next week and spreading a bit of joy amongst our community.

Eco Club

Our Eco club has got off to a great start this term with some very passionate children keen to work on many areas of the school environment. We have some big projects that we are preparing for as well as small things we can all do.

If anyone has any of the following they could donate it would be much appreciated.

Bird boxes
Bird seed and bird feeders
Bulbs and bedding plants
Secateurs
Outside fence paint

An Eye into Industry

Morpurgo Class had the opportunity to talk about a Lincolnshire Windfarm this week, hearing from various stakeholders gave them a fantastic insight into how a Windfarm operates. It also gave the children the opportunity to hear from 'real people' in the working world. This is something we want to keep doing throughout school, if you (or anyone you

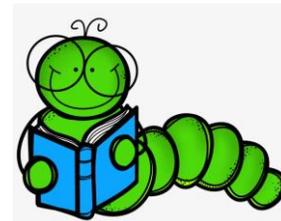

know) would be interested in sharing an insight into your working world, please do not hesitate to get in contact with us.

Staffing

We are very happy to let you know as from Monday, Mrs Copping will be working as a T.A in school Monday - Wednesday. We are very excited for Mrs Copping to be joining us.

Reading Books and Games Library

We love to see children enthused about reading and borrowing games from our library and it is fantastic to hear them come in and tell us all about them. When they are at home, could you please encourage your children to ensure they are taking care of these, as we increasingly have to repair or replace them when they come back into school.

Homework Menu

It is always fantastic to see the amazing things that children produce from their homework menus, if children have yet bought in their projects and creations, please remind them to do so over the next week so we can celebrate their hard work.

School Lunches

Please remember to order school lunches as soon as possible for the start of next term. Should you have any queries regarding ordering please contact Willoughby Foods Tel: 01205 351133.
